PROJECTS

SALES MANAGEMENT SYSTEM

Java Swing-based Sales Management System with MySQL and JDBC, featuring user authentication, product and customer management, sales processing, invoice generation, and database integration using object-oriented design principles.

PORTFOLIO

Designed and deployed a responsive, minimalist personal portfolio utilizing native HTML,CSS and JavaScript to showcase academic projects and technical skills. Engineered a robust automated CI/CD pipeline using GitHub Actions to enforce code quality via automated linting constraints (ci.yml) and production deployments (deploy.yml) upon merging feature branches into the production branch.
